Eco Spec® Interior Latex Eggshell Enamel 223

A low odor, low VOC, 100% acrylic latex eggshell enamel that provides high hiding, excellent touch up, and quick return to service. Its resulting film combines the beauty of a flat finish with the washability of a semi-gloss finish. Recommended for new or previously painted interior wallboard, plaster, or masonry; primed or previously painted wood or metal. Eco Spec Interior Latex Enamel (223) is ideally suited for commercial, facility management, and residential applications. Eco Spec Interior Latex Enamel (223) does not have the odor of conventional paints that contain ingredients known as Volatile Organic Compounds (VOCs).
